

Pedro Diego Alvarado "Mazorcas" Serigraph 4/100

Latin American Printmakers

The main focus of Ruiz-Healy Art is the promotion of contemporary Latin American artists. Ruiz-Healy Art specializes particularly in fine art prints: original works of art created through a variety of processes, among them: serigraphs, lithographs, etchings and engravings, mixographs, monoprints, woodcuts and other relief prints.

The goal of this exhibit is to showcase these varied techniques through the work of contemporary Latin American artists. We believe that printmaking is not simply a method of reproduction but rather a form of artistic creation, playing an important role in the development of an artist's career.

An exhibit of prints featuring work by:

Juan Alcazár, Javier Arévalo, Pedro Diego Alvarado-Rivera, Jose Luis Cuevas, Richard Duardo, Leon Ferrari, Pedro Friedeberg, Alberto Gironella, Sergio Hernández, Joy Laville, Nicolás Leiva, Rodolfo Morales, Carmen Parra, Chuck Ramirez, Shinzaburo Takeda, Francisco Toledo, and Roger Von Gunten.
