VIP PREVIEW APRIL 22, 2026

PRESENTED BY AIPAD

This week, The Photography Show presented by AIPAD opens at the Park Avenue Armory, April 23–26, bringing together today’s most compelling voices in photography. Presented by members of the Association of International Photography Art Dealers (AIPAD) alongside distinguished guest exhibitors, publishers and partners, the 2026 edition highlights photography’s continued evolution and its central place within the art world’s conversation.

This year introduces Focal Point, a new curated sector devoted to solo presentations that celebrate artists exploring and expanding lens-based practices. From historical innovators to contemporary visionaries, these exhibitions trace photography’s capacity to reimagine how we see and understand our world. Reflecting a dynamic shift across the field, the prominence of Latin American photography adds further depth and global perspective to this year’s fair.
